Module Access Remaining

Student Name : ■■■■■■■■

Course Name : HVAC Training - C

Module Name	Module Access Allowed	Module Access Remaining
Refrigerators and Room AC Fundamentals	30	30
Basic Industrial Safety	30	30
Basic Lockout-Tagout	30	30
Basic Process Instrumentation & Control	30	30
Electrical Safety	30	30
Electricity for Technicians	30	30
Fundamentals of Gas Heating Furnaces	30	30
HVACR Safety - Piping-Tubing Handling	30	30
Leak Detection - Charging - Expansion	30	30
Math for Technicians and Operators	30	30
Physics for Technicians 1	30	30

Step 2: Clicking on the "**Remaining Module Access**" button brings you to the screen above. A typical course consists of a number of modules. This screen shows your module-access record for each of the modules. As you log on and access a particular module, the "remaining access" number for the module goes down.

In our estimate, an average student needs to access a module 3-8 times to successfully pass the written test. In order to provide more flexibility for students, we have set the allowable access number to 30 per module. If a student needs extra access for any reason, we will be happy to accommodate such requests.

You can go back to the "Student Profile" screen by clicking on this button in the left hand menu.
